

MSC PROJECT SPECIFICATION

NAME OF PROPOSAL

Author Name

School of Computing and Mathematical Sciences
Liverpool John Moores University

Some notes about your proposal.

- It must be submitted by 31st January.
- It should be submitted online alongside your project specification and ethical approval form.
- Your proposal must not be more than 6 pages long.

1. Project Overview

Present an introduction to the topic and the aims and objectives of the project.

2. Literature Review

Survey the main results from the literature available in the topic.

3. Methodology

A discussion about the Methodology and Specification of anticipated project final Deliverables, i.e. what you are expected to do and hand in. If you are expected to develop a system or tool, you can describe its expected features and functionalities.

4. Project Work Plan

4.1. Proposed Plan of Work

A Project Work Plan showing a programme of work with associated staged deliverables and time schedule. It is very important to set yourself a time schedule using short time scales like one week or two weeks at most. Please include: starting date/tasks to do/end date/deliverables expected at the end date. This will help you monitor your progress and take the necessary steps, if problems occur, before it is too late.

Task	Month	Activity
1	1-6	Literature review on your given area.
2	6-??	Requirements analysis.
3		Design solution.
4		Implementation

5	Evaluation
6	Write up thesis.

4.2. Project Plan Gantt Chart

The Gantt chart shown in Figure 1 summarises the research work to be undertaken.

A Gantt chart should be included here. Microsoft Project can be used to produce this.

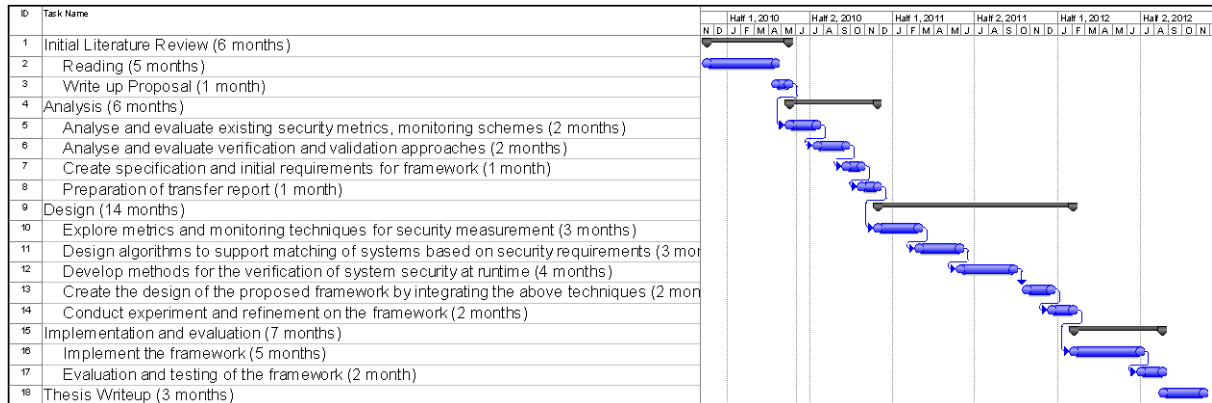

Figure 1. Project timeline.

5. Resources

Resources needed: specific hardware/software or other project specific requirements.
